

I want the facts on prostate health.

No drama, no hype, just give it to me straight.

- Prostate cancer is the most common cancer in men aged 65-plus.
- If caught early, prostate cancer has a high cure rate.
- Men over 50 are at increased risk.

Learn more from a doctor who shares his journey as a survivor; topics include screening guidelines, warning signs, and new treatment options.

FREE SEMINAR

JANUARY 27 • 6 - 7 PM
